Mr. Richard W. Antalek
Director, Office of Software Improvement & Engineering
Social Security Administration
6401 Security Boulevard
Baltimore, Maryland 21235

Dear Mr. Antalek:

Enclosed are the minutes of the March 4 Federal IDMS/R Database Advisory Group meeting and the form to fill out if you plan to attend the June meeting.

We're coming up on our fourth meeting and the end of the first year for this group. It's time to take stock of where we are going. As I mentioned in my first letter to you last June, the original intent was that membership consist of senior Federal officials at the director level in the data processing and MIS fields, for the ultimate purpose of influencing the product strategy and support provided by Cullinet Software to its government customers.

The composition of the group seems to have blurred over these past eight months, so I would like to use the upcoming meeting in June to discuss the future of this group from that perspective and to look at passing the baton to new leadership.

Sincerely,

Edward J. Maloney
Director of Information Technology
